DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1 and 2 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 1 and 2 are single means claims reciting only a controller. The claims covered every conceivable means for achieving the stated purpose was held nonenabling for the scope of the claim because the specification disclosed at most covers only those means known to the inventor.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is vague and indefinite. The preamble calls for transmitting data cells of packets in sequence; however,

Art Unit: 2661

no element for transmitting data cells is found in the body of the claim so as to define the apparatus that performs the operation cited in the preamble.

Response to Arguments

5. Applicant's arguments filed 04/05/04 have been fully considered but they are not persuasive. The Office notes there is no Interview Summary in the record as the applicant did not attend the interview scheduled for April 12, 2004.

With regard to the applicant's arguments concerning the 35 U.S.C. 112, First Paragraph rejection of claims 1 and 2, claims should be read in light of the specification, but unclaimed limitations from the specification should not be read into the claims. Applicant's argument on page 3 is not persuasive because the claims do not recite disclosed features (In re Hammack, 166USPQ 209 (CCPA 1970)).

While the applicant points out that claims 1 and 2 are not written in means plus function form, claims do not have to be written in means plus function form to be considered a single means claim. The breadth of claims 1 and 2 renders them tantamount to a single means claim which are generally viewed without favor (Ex Parte Kung 17 USPQ2d 1545). Furthermore, claims 1 and 2 are drawn to a single element, reciting only a controller. The proper statutory rejection of a single means claim is the requirement of the first paragraph of §112 that the enabling disclosure of the specification be commensurate in scope with the claim under consideration (In re Hyatt 218 USPQ 195).

Art Unit: 2661

With regard to the applicant's arguments concerning the 35 U.S.C. 112, Second Paragraph rejection of claims 1 and 2, the applicant points to the specification to support the limitations of claim 1. The applicant, however, does not address that there is no element for transmitting data cells found in the body of the claim so as to define the apparatus that performs the operation cited in the preamble. Claims should be read in light of the specification, but unclaimed limitations from the specification should not be read into the claims (In re Hammack, 166USPQ 209 (CCPA 1970)).

Allowable Subject Matter

6. Claims 3-11 are allowed.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 2661

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
